

Ethan Henseleit

SUMMARY

Senior QA professional with 5 years of experience supporting AAA titles for studios including Halo Studios, Respawn, and DICE. Experienced in embedded DevQA, quality area ownership, cross-studio coordination, and stakeholder reporting. Proven track record of directing international QA efforts, improving development processes, and collaborating across production, development, and QA teams to support project goals.

PROFESSIONAL EXPERIENCE

GlobalStep, Richardson, TX

Jan 2025 – Present

Senior Software Test Engineer supporting **Microsoft/Halo Studios** as embedded DevQA on *Halo: Campaign Evolved* and **2K/Gearbox Software** on *Borderlands 4*.

- Serve as Quality Area Owner for Campaign and Environments on *Halo: Campaign Evolved*, directing testing and coordinating QA efforts across seven international partner studios.
- Design and execute test specifications, test plans, and test cases for campaign, environments, and cinematics on *Halo: Campaign Evolved*.
- Partner with engineers to define requirements for Power BI KPI dashboards used to report daily bug trends and test progress to production and product owners.
- Train and mentor new test analysts and test engineers, standardizing onboarding practices and improving team efficiency.
- Author and maintain Confluence documentation to streamline handoffs, support troubleshooting, and preserve area-specific knowledge.
- Implement new processes for daily smoke tests, cutting delivery time by half.

PRO Unlimited, Baton Rouge, LA

Jun 2017 – Jul 2020

Quality Assurance Tester contracted to **Electronic Arts**. Worked with studios such as **DICE, Respawn, Maxis**, and **EA Tiburon** on several AAA titles.

- Executed assigned test plans and test cases in TestRail across multiple AAA titles.
- Documented defects to department quality standards and performed regression testing while minimizing invalid and duplicate bug submissions.
- Collaborated with developers to provide additional testing information and verify reported defects.
- Coordinated with international QA teams to ensure completion of assigned test plans and coverage.

EDUCATION
